

Serial No. 10/782,379
Art Unit 3765

LISTING OF THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in the application:

1. (Currently amended) An undergarment, comprising:
a transparent layer having an inner and outer surface;
a support layer having an inner and outer surface; and
a third, intermediate layer for adhering or fusing said transparent layer and said support layer,

wherein said support layer or said intermediate layer has a design or pattern thereon that is visible through said transparent layer.

2. (Original) The undergarment of claim 1, wherein the undergarment is a brassiere.

3. (Previously presented) The undergarment of claim 2, wherein said support layer is a transparent material.

4. (Original) The undergarment of claim 3, wherein said transparent material has sheer characteristics.

5. (Previously presented) The undergarment of claim 4, wherein said support

Art Unit 3765

layer is a support material having resilient characteristics.

6. (Previously presented) The undergarment of claim 2, wherein said support layer is a support material.

7. (Cancelled)

8. (Previously presented) The undergarment of claim 2, wherein said support layer is shaped to essentially extend under a wearer's breasts and along a lower and side breast profile when the undergarment is worn.

9. (Currently amended) An undergarment, comprising:
a seamless transparent layer;
a seamless support layer; and
an adhesive or fusing layer,
wherein said adhesive or fusing layer securely adheres or fuses said seamless transparent layer to said seamless support layer, and
wherein said seamless support layer or said adhesive or fusing layer has a design or pattern thereon that is visible through said seamless transparent layer.

10. (Original) The undergarment of claim 9, wherein the undergarment is a brassiere.

Serial No. 10/782,379
Art Unit 3765

11. (Original) The undergarment of claim 10, wherein said seamless transparent layer is made of a material having sheer characteristics.

12. (Original) The undergarment of claim 10, wherein said seamless support layer is made of a material having resilient characteristics.

13. (Original) The undergarment of claim 10, wherein said support layer is shaped to extend under a wearer's breasts along the lower and side breast profile to substantially support said breasts when the undergarment is worn.

14. (Currently amended) A method for forming an undergarment, comprising the steps of:

- (a) providing a support layer;
- (b) applying an adhesive or fusing layer to said support layer;
- (c) cutting said support layer combined with said adhesive or fusing layer to a desired shape;
- (d) adhering or fusing said support layer with said adhesive or fusing layer to a transparent layer to provide seamless connection; and
- (e) molding said support layer, said adhesive layer and said transparent layer to form a unitary molded breast cup, wherein said support layer provides reinforcing support along a lower profile portion of said cup,

wherein said support layer or said adhesive layer has a design or pattern thereon that is visible through said transparent layer.

Serial No. 10/782,379

Art Unit 3765

15. (Original) The method of claim 14, wherein the undergarment is a brassiere.

16. (Original) The method of claim 15, wherein said transparent layer is a material having sheer characteristics.

17. (Previously presented) The method of claim 15, wherein said support layer is a material having resilient characteristics.

18. (Original) The method of claim 15, wherein said support layer is shaped so that when the undergarment is worn, said support layer essentially extends under a wearer's breasts and along the lower and side breast profile.
